Resolutions Committee Confines Itself to a Carefully Worded Approval of Arbitration.

MOHONK LAKE, N. Y., May 19 .- The olutions committee of the Lake ionk conference on international aroitration today showed its appreciation of the unsettled condition of interna tional affairs by presenting a platform which avoided any radical recommendations and confined itself to carefully worded approval of the general princile of arbitration. The platform proved disappointment to members of the league to enforce peace, headed by former President William H. Taft; preding officer of the conference. "The tendency of this court at The Hague to become in reality permanent is evident from the fact that there are eight judges who have sat in three or more of the fifteen cases, and one judge has sat in seven of the fifteen cases.

"The conference desires again to affirm its belief in the desirability of such legislation by Congress as will confer upon the courts of the United States jurisdiction over all cases arising under treaty provisions or affecting ing under treaty provisions or affecting the rights of aliens."
